

Joyce Juhler

I began square and round dancing as a child and began teaching dance in 1987.

My parents were ballroom and square dancers back in the time when they always took the kids. I learned to dance with my cousins, brother, uncles, and grandparents. Plus it was nothing to see us all dancing, my parents leading the way around the dining room table after the milking and supper was done for the evening. I grew up on the family farm near Atlantic, IA with all my relatives close by and attended a one-room country school with my three sisters and brother. I am proud to now be named the food producer and owner of our second generation farm!

I have held several office positions throughout the years including secretary for the Nebraska State Callers and Cuers association for 12 years, General Chairman for the Iowa State Convention, Secretary for Kansas State Convention, and Caller/Coordinator for the Kansas State Convention.

I have choreographed round dances that have been chosen as Round of the Quarter for several dance associations across the United States. The choreography in the Phase II dance "Funny Face" was featured in the Roundalab teaching manual. I have been an instructor at URDC and I have had the honor of teaching the Hall of Fame round dance at URDC in San Jose, CA.

I currently cue for the Lone Wranglers Square Dance Club in Manhattan, KS and cue for surrounding square dance clubs. I call square dance demonstrations at nursing homes and conduct fun nights and one-nighters several times during the year. Also, I instruct a beginners round dance class and am the leader for Carousel Club #346. I instruct ballroom classes at my home dance studio.

My career is in accounting and I am employed at the Riley County School District. I have two children and six grandchildren. My son and his family live near Des Moines, IA., my daughter and her family live near Manhattan, KS.
